

CGWD/CCAD/CGWE SPARE PARTS

Because of the reliability of our product and the speed of parts delivery, Trane-Pueblo has not made any formal recommendations for spare parts. However, we recognize a customer's desire to be able to instantly respond to any problem that may present itself. Although this list is in not exhaustive, we anticipate that these parts will cover a majority of the problems that would be encountered. The following recommendations are made:

High Pressure Cutout.....	1 total
Low Pressure Cutout Switch	1 total
Control Transformer Fuses	10 total
Thermal Expansion Valve (TXV)	1 total
Evap Entering Water Temp Sensor	1 total
Evap Leaving Water Temp Sensor	1 total
Current Transformer	2 total
Cond Entering Water Temp Sensor (if selected).....	1 total
Cond Leaving Water Temp Sensor (if selected).....	1 total
Liquid Line Solenoid	1 total
Hot Gas Bypass Valve (if selected).....	1 total
Refrigerant Filter/Dryer	1 total

Note: The TXV (Thermal Expansion Valve) and the LPCO (Low Pressure Cut Out) will be different depending on the Evaporator Leaving Water Temperature that the unit was selected for. See Digit 15 of the model # for the correct digit:

1= Standard 40-60F ELWT

2= Low Temperature 25-39F
